

ABC Foodmart Dashboard

A real-time analytics platform designed to provide retail executives and operations managers with actionable insights across store revenue and sales performance

1. Store Revenue Analysis

Track revenue across all ABC Foodmart locations. This module shows all the store performance and flags underperforming locations.

Total Revenue by Store

Product Revenue

Aisle Revenue

2. Sale Performance Analytics

Gain deep insights into product performance and customer purchasing behavior. Identify top-performing aisles, track promotion usage, and track real-time daily sales of each store.
